

DEPARTMENT OF PSYCHOLOGY
KURUKSHETRA UNIVERSITY KURUKSHETRA
INFORMATION ABOUT ACADEMIC DEPARTMENTS FOR WEB-PORTAL
Department Profile

The Department of Psychology came into existence after bifurcation from the Department of Philosophy in 1978. It is located at 2nd floor of Old Computer Science Building of the university. Apart from master's degree courses in leading areas the department is actively engaged in research in the field of Mental Abilities, Personality, Psychometrics, clinical Psychology, and Organizational Behaviour. The other thrust areas that department intends to pick up are Psychology Medicine, Crime and Violence, Youth Indiscipline, Rural Studies and Cross-Cultural Research. Simply because of the fact that Haryana lives in villages, social problems with rural orientation would constitute a main area for future research.

Vision and goals:

Apart from training the students in understanding basic principles of behaviour the department is striving for its applications in solving real social problems like underachievement, poverty, violence and crime and mental problems in the community. Department intends to establish a Clinic-cum-Testing Laboratory for the study and management of Psychology disorders.
